March 29, 2012

To: All Prospective Contractors

RE: "Rubberized Asphalt Concrete (RAC) Engineering and Technical Assistance Contract, DRR11056"

Addendum No. 1 To the Request for Qualifications (RFQ) DRR11056

1. Attached is a list of all businesses who have expressed an interest in the contract to date (Attachment 1).
2. The following questions were submitted in response to the RFQ; answers to each follow the question.

Q1. The requirements in the RFQ for General Liability are:

Insurance: Contractor shall maintain the following insurance policies throughout the life of the resulting Agreement:

1. General Liability and Umbrella Insurance, with the following limits:

- a. \$1,000,000 for each occurrence
- b. \$2,000,000 general aggregate
- c. \$5,000,000 umbrella or excess liability

This equates to \$6 million per occurrence and \$7 million aggregate. Will the following be sufficient to meet the contract requirements; which provides \$5 million per occurrence and \$7 million aggregate?

- a. \$2,000,000 for each occurrence
- b. \$4,000,000 general aggregate
- c. \$3,000,000 umbrella or excess liability

A1. The combination of insurance policy coverage limits proposed does not provide CalRecycle or the State with the same level of protection as the requirements set forth in the RFQ. Therefore, the proposed set of policies/policy limits is not sufficient to meet the contract requirements.

Q2. Attachment A Section E, requires a performance bond. A performance bond is something that is the responsibility of the contractor doing the construction to obtain. It guarantees that the work contracted for will be "performed" and

completed as stipulated. As this is not a construction contract and we are not construction contractor, does this requirement apply? Moreover, the provisions for payment under this contract will be subject to a ten percent (10%) withholding per task. The withheld payment amount will be included in the final payment to the contractor and will only be released when all required work has been completed to the satisfaction of CalRecycle. Does this not protect CalRecycle on the performance issue?

A2. Response to performance bond question: Since we are not proposing actual construction activities under this contract, this requirement does not apply.

Response to 10% withhold question: No response needed since performance bond is not required.

Q3. The previous (2009) contract for these services had a UDBE/DBE/DVBE requirements; is there such a requirement this time?

A3. Although we strongly encourage you to utilize Small Business and Disabled Veterans Business Enterprise services when fulfilling work orders; CalRecycle did not make this a mandatory requirement for this contract.

Q4. On Page 7, Item “a” of the RFQ: the RFQ references Attachment I – is this really Section I of the document or is there an Attachment (beyond Attachment G) that we did not receive?

A4. The reference to Attachment I is a typographical error and should have read Attachment G. Attachment G is the last attachment.

All other terms, conditions, and requirements of this RFQ will remain the same.

If you have any questions relating to this RFQ process, please contact me by e-mail at contracts@calrecycle.ca.gov.

Sincerely,

{Original Signed By}

Shelly Lewis
Contract Analyst
Administrative Services Branch
